

I love listening to XM satellite radio. I own 2 receivers and listen over my broadband. I especially like being able to get traffic and weather channels when I travel. I like the variety and quality that I cannot get locally. I pay for these services(\$19 a month), and do not feel the NAB should be able to dictate what I listen too. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the programming and services I pay for.

Thank you, Dr. John Keinath
